

Model CM5 Compact Milk Cabinet

Osborne Refrigerators Ltd have been established at our West Sussex base for over 50 years and we are the leading British manufacturer of refrigerators designed for the chilling and storage of cold beverages and food stuffs. All our refrigerators use CFC-free polystyrene insulation and environmentally friendly R600a hydrocarbon refrigerant (R134a can be supplied as an alternative to special order). All packaging is recyclable and the cabinets themselves can be efficiently recycled at the end of their life.

Details

Model CM5 is a compact single door cabinet designed for the safe and convenient storage of milk. It accepts a standard 1/3 gastronorm pan of up to 150mm depth and can be supplied with a milk-delivery tube to allow chilled milk to be pumped straight from inside the cabinet into a coffee machine. It's size allows it to be situated almost anywhere, even built under or into the coffee machine itself. Manufactured from oven-baked enamel coated zintec steel with a stainless steel interior, the interior is fan-circulated for consistent cooling performance. The unit is fitted with a digital temperature controller for easy reference.

	Model CM5
H (mm)	245
W (mm)	430
D (mm)	560
Nett Cap. (ltr)	19.2
Milk Cap. (ltr)	5.5
Technical	
Refrigerant	R600a
Electrical Supply	220-240/1/50Hz
Power Rating	65W

Features

- Automatic defrost and re-evaporation
