

# OSBORNE REFRIGERATORS

## 2022 Upright Chiller Range

The Osborne **eCold** range...  
...saving pounds and the planet.

The *eCold* range from Osborne Refrigerators is designed to be good to your pocket as well as the environment. Low-voltage fans and LED lighting put very little waste heat into the cabinet and improved insulation and efficient compressors maximise cooling performance while using less energy. *eCold* cabinets are also designed to be virtually maintenance-free, with no fluorescent tubes to change, and condensers that never require unblocking.

Osborne Refrigerators Ltd were established in West Sussex more than 50 years ago and we are the leading British manufacturer of refrigerators designed for the display and storage of wine and cold beverages. As well as our display cabinets, which are specified by leading breweries, drinks manufacturers and leisure companies across the world, we also manufacture stainless steel solid door catering chillers and a range of specialist milk cabinets.

All our refrigerators use hydrocarbon refrigerant (alternatives available for some models), CFC free polystyrene insulation and can be efficiently recycled at the end of their life.

The Osborne product range is always evolving, due to our commitment to continuous improvement and also in response to specific customer requirements. We have built an enviable reputation for the quality and reliability of our refrigerators and we will never stop working to maintain that reputation.

### Details

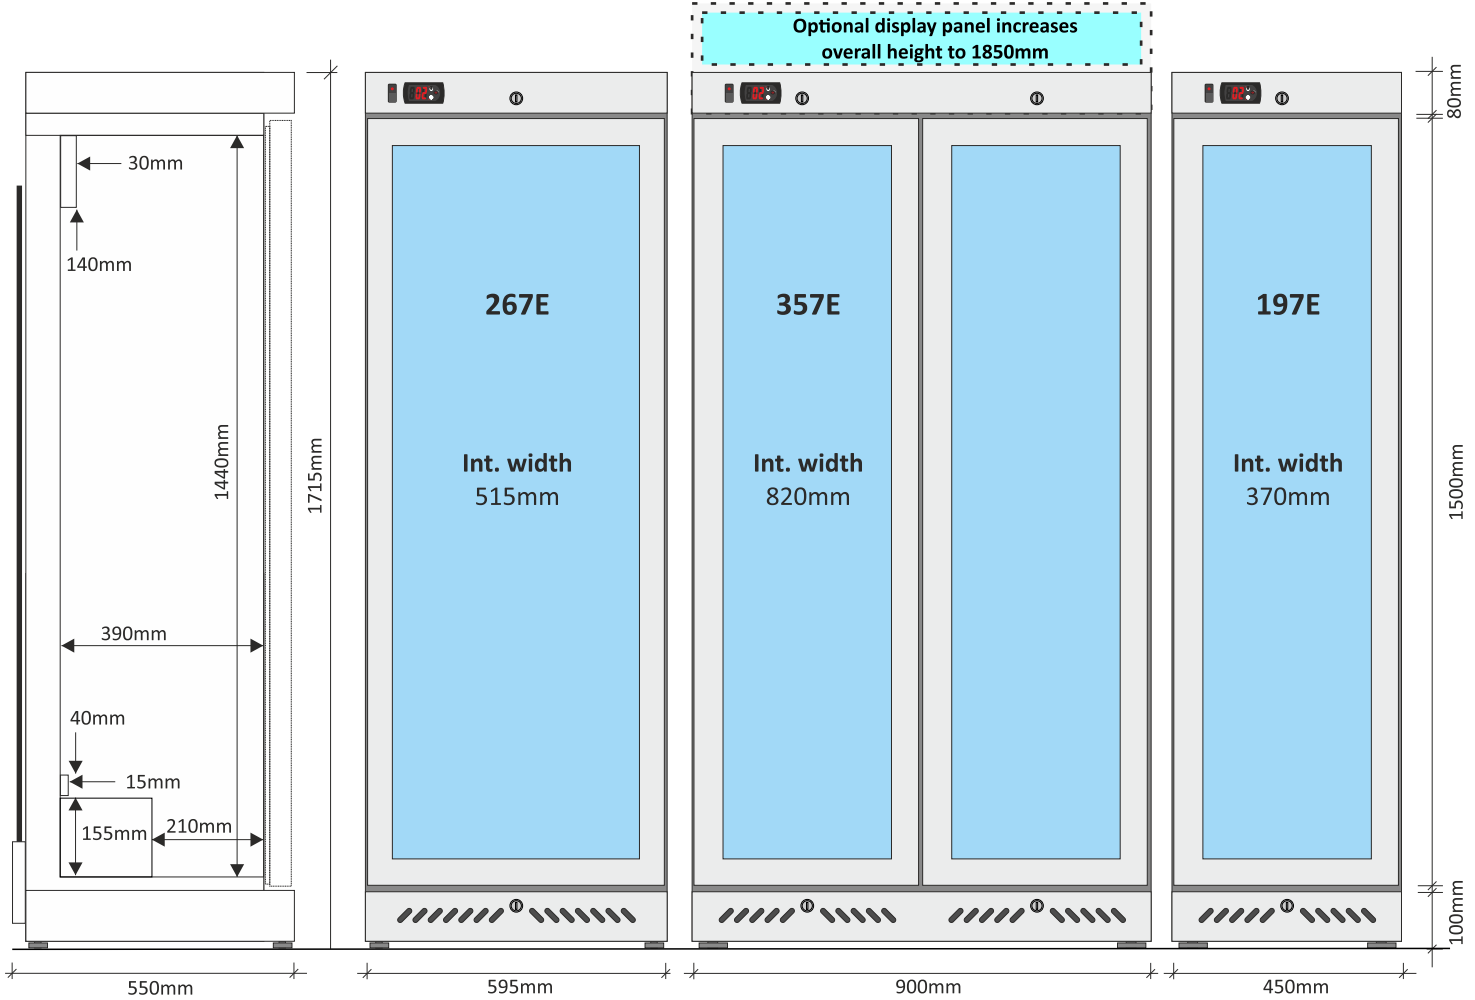

Our new upright *eCold* cabinets are available in four sizes, to suit the widest variety of situations. The range has been redesigned for 2022 to fit larger doors into the same sized cabinets. This gives an increase in the display area of nearly 10% and also an increase in capacity. Designed primarily for the storage and display of bottled beverages, these cabinets are also suitable for foodstuffs. They are manufactured from rust resistant zinc-coated steel with a hard wearing powder-coat finish, or from stainless steel. The standard painted finish is black or silver but other RAL / Pantone colour finishes are available to special order. The interior is stucco aluminium or stainless steel. The stainless steel finish is brushed as standard, but a bright finish is now also available. The interior is fan assisted for consistent chilling performance and the maintenance-free condenser is fan-cooled for increased efficiency. The doors are double glazed, hinged and lockable. Solid doors (also lockable) are available as an option for all models. A top mounted lightbox is also available, great for product branding.

**Features**

- Fan assisted evaporator for rapid cooling
- Fan assisted condenser for efficient running
- Automatic defrost and re-evaporation
- LED lighting & low voltage fans
- Digital temperature controller
- Lockable double glazed door
- Adjustable feet front & rear

**Options (some special order only)**

- Solid lockable door(s)
- Choice of colours
- Stainless steel exterior and/or interior
- Stainless steel door on painted fridge (frame/solid)
- Display panel
- Castors (add 95mm to height)
- 60Hz electrics

<b>Size</b>	<b>197E</b>	<b>227E</b>	<b>267E</b>	<b>357E</b>
